DETAILED ACTION

Election/Restrictions

Applicant's election of Group I in the reply filed on June 19, 2006, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Applicant is entitled to have the method claims (Group III), which are commensurate in scope with the elected invention, rejoined. An amendment, which results in the method claims being commensurate in scope with the allowed claims, will be welcomed.

Groups II-IV are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant reserved the right to file a divisional application to the non-elected subject matter.

An action on the merits of Group I (claims 1-2) is contained herein.

Conclusion

This application is in condition for allowance except for the presence of non-elected subject matter in the claims.

The compounds, in Group I, were neither found to be obvious nor anticipated by the prior art of record. The prior art does not teach or suggest the presently claimed thienopyrrolyl and furanopyrrolyl compounds.
